

EnterpriseVision 2004

ADVANCING IT ALLIANCES

July 28-30, 2004
The Grand America Hotel
Salt Lake City, Utah

EnterpriseVision is a valuable investment of my time. I quickly learn more about products than I could have ever accomplished in any other format. The opportunity to meet with vendors and other solution providers, many who have first-hand experience with these products, has given me the confidence to recommend them to our clients. Additionally, the Gartner analysts' sessions were great.
